Summary

Languages: Java, Python, C, JavaScript, Bash, HTML, CSS

Core Concepts: Object-Oriented Programming (OOP), Data Structures, Algorithms, REST APIs, MVC Architecture, CI/CD, Cloud Infrastructure, Networking Basics

Frameworks & Libraries: React.js, Node.js, Express.js, JUnit

DevOps Tools: Terraform, Ansible, Docker, Kubernetes, Prometheus, Grafana

Version Control & CI/CD: Git, GitHub, Jenkins, GitHub Actions

Databases: MySQL, PostgreSQL, MongoDB

Platforms & OS: AWS, Azure, Linux, Windows

Soft Skills: Leadership, Communication, Problem Solving, Public Speaking, Time Management, Teamwork

Certifications

- AWS Certified Cloud Practitioner 2
- Red Hat Certified Enterprise Application Developer 2
- Certified System Administrator 2
- Certified Application Developer 2
- Cambridge Linguaskills Certified

Education

Experience and Position of Responsibility

Research Intern – Software Reliability (NPTEL Topper Selection), IIT Ropar July 2023

- Selected for research internship based on topper rank in NPTEL Software Reliability course
- Supported testing and DevOps efforts in a cross-functional student team

Cognavi, Campus Ambassador 2024

- Increased User engagement reaching more than 500+ students
- Contributed to front-end improvements for enhanced UI/UX

Senior Creative Member, Radio Club, KL University Aug 2022 – Present

- Write scripts for college events, radio jockeys (RJs), podcasts, and live broadcasts
- Collaborate with team members to create engaging content for various platforms • Played a key role in enhancing audience engagement by crafting compelling narratives and scripting diverse content that increased listenership and event participation

Student Peer Mentor, KL University 2023 – 2024

- Continuously learned through projects and certifications
- Assisted peers in academic and personal development

Projects

Automated CI/CD Pipeline with Secure AWS Deployment Link 2

- Implemented a CI/CD pipeline using Jenkins to automate build, test, and deployment for a web application.
- Improved efficiency by replacing manual deployments with reliable, repeatable automation.
- Integrated Amazon GuardDuty and SNS for real-time security monitoring and alerting.

End-to-End Corporate DevOps Pipeline Implementation Link 2

- Designed and implemented a full-scale DevOps pipeline including infrastructure provisioning, CI/CD, and monitoring across Kubernetes clusters.
- SetupKubernetes(K8s)clustersandprovisionedVMsforJenkins, SonarQube, andNexus to enable secure, scalable infrastructure.
- Integrated Git repository with Jenkins for automated CI/CD workflows.

Full Stack Ride Booking Application with Real-Time Maps Integration Link 2

- Developed a full-stack web application enabling user and captain (driver) registration, login, and secure session handling using custom AuthUser middleware.
- Designed and integrated user and captain profile forms with React, ensuring seamless frontend-backend interaction.
- Built responsive user and captain home interfaces with real-time location search and route suggestion..

Achievements

- Selected as a **Intern** at **IIT Madras & IIT Ropar**.
- Achieved **1st rank** in **NPTEL Software Testing**.
- Secured **1st place** in Code4Change Hackathon at KL University.
- Cleared All India **UPSC NDA** examinations for the 147th and 148th NDA courses.
- Holder of **NCC Army B Certificate** and recognized as **Topper of Batch** in the **NCC Army A Certificate Exam**.
